

PERSONNEL CABINET

NIKKI R. JACKSON

Secretary

*I thought you might enjoy these publications... hot off the press! The first is the Society of Human Resources Management's "Executive Roundtable on the Future of Retirement" Executive Summary. Kentucky's Personnel Cabinet was an invited participant...the only state employer represented at the roundtable. In addition, please find two articles, written by me, published in the "Public Manager" winter issue, as well as "HR News," a publication by the International Management Association for Human Resources. Finally, I am most excited to have been profiled in the second edition of "Kentucky SHRM" magazine (copy attached) I appreciate your ongoing support.*

*Enjoy!*
